

User Manual

There is a web application, mobile application and robot in that system.
Let's talk about web application.

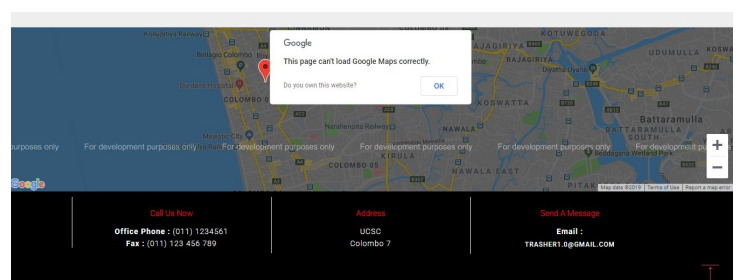

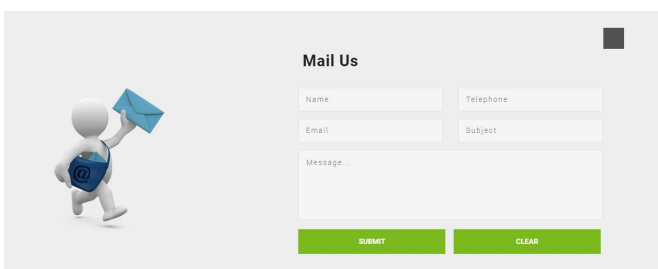

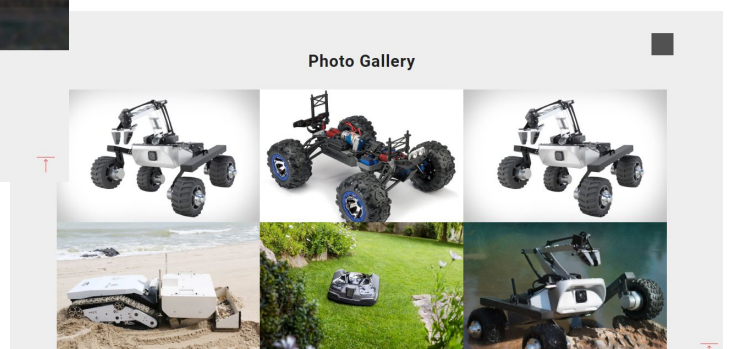

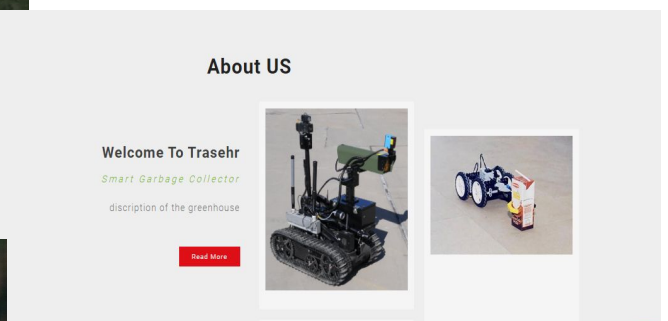

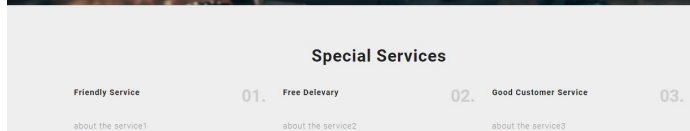

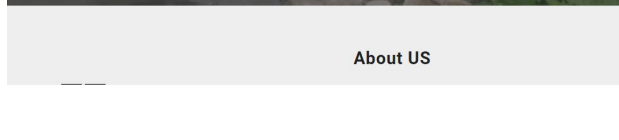

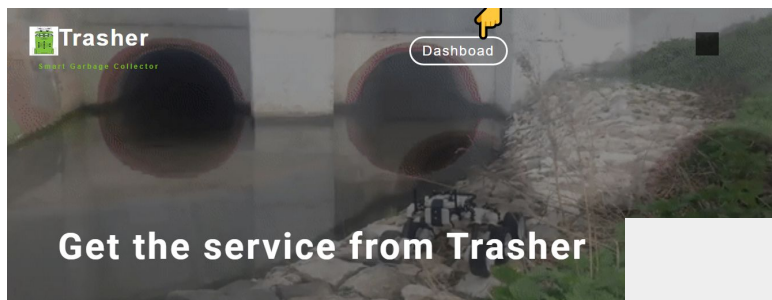

In Web application there are two types of webs include.

Admin side web

Client side web

Client side web application

First of all , we consider about landing page.Following images show the Landing page of that client side web application.

After entering correct user name and password , can be logged into the system as a customer . customer dashboard given bellow .

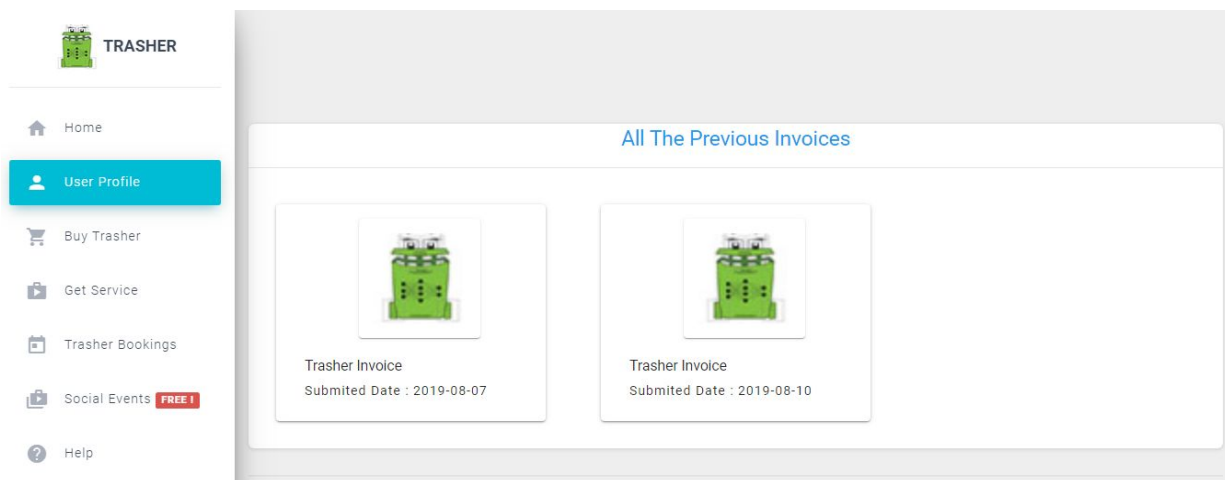

Let's see , comment section of the customer dashboard.Customer can give their feedback for particular thrasher using this section.

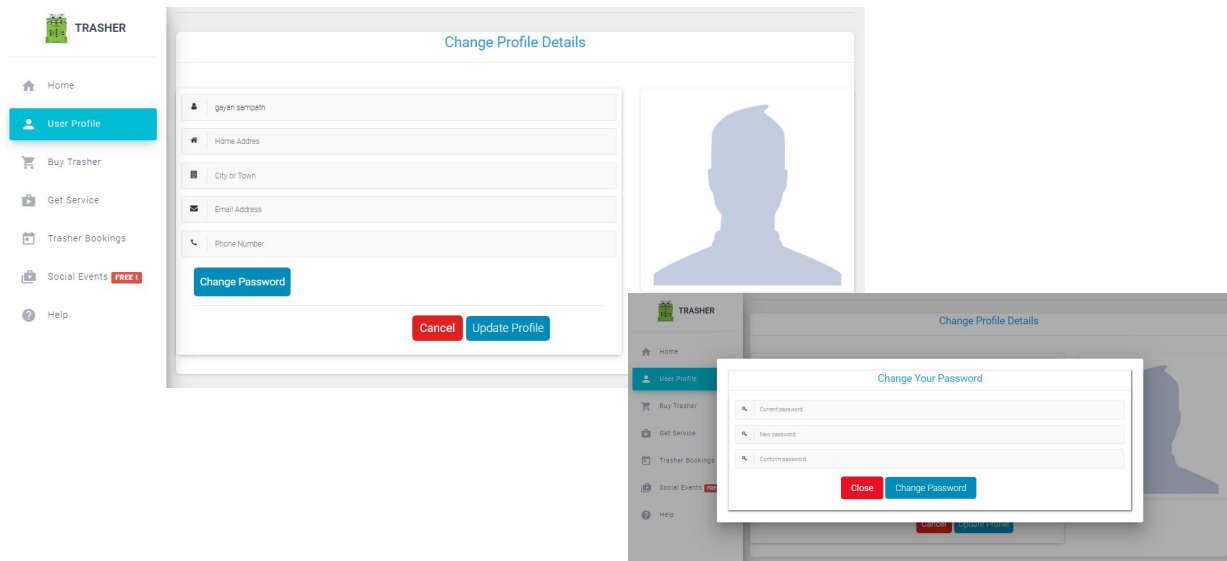

Let's move on to the customer profile page . There are 3 major sections in this page.

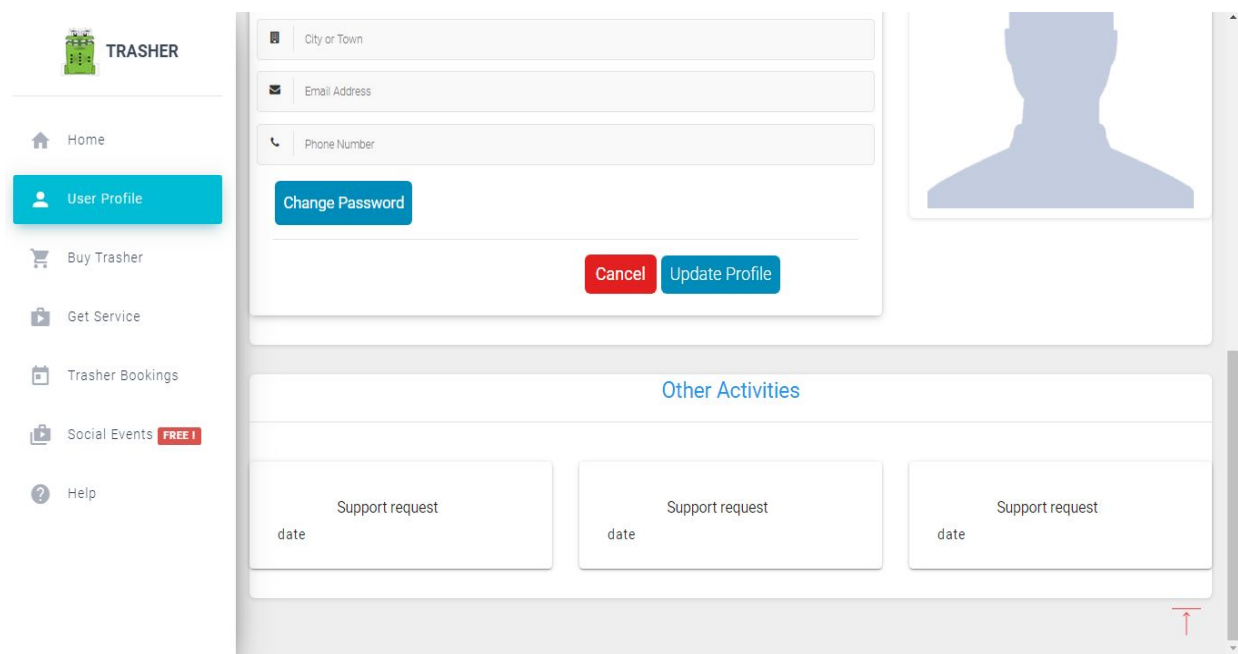

1. At the first section, show all the invoices which are already requested by particular customer .

2. User Profile management is shown in the second section.

3 . Customer other activities are shown in the last section . (support requests)

Let's Move on to trasher Buying page. User should fill the form details and select the pickup location . (We provide free delivery service). And also user can pay advance payment.

User can pay about Rs.500/= and confirm their buying request.(Payhere payment gateway used for this.)

Let's consider about how to get service from Thrasher ..Thrasher service form given bellow.

The collage consists of four screenshots from the Thrasher service website:

- Top-left:** A screenshot of the 'Thrasher Service Invoice' form. It includes a sidebar with navigation links (Home, User Profile, Buy Trasher, Get Service, Trasher Bookings, Social Events, Help) and a main form with fields for Customer Name, Delivery Address, City or District, and a date picker (mm/dd/yyyy). There is a 'Search available time slots' button and a 'Payment Details' section with a 'Select your bank' dropdown and a 'Peoples' Bank' field.
- Top-right:** A screenshot of the 'Select the cleaning area' map. It shows a map of Sri Lanka with a black boundary drawn around a region. The map is labeled 'Sri Lanka' and 'Select Pickup Location'.
- Bottom-left:** A screenshot of the 'Select the Delivery location' map. It shows a map of Colombo with a red pin. The map is labeled 'Select the Delivery location' and 'Cancel' and 'Submit' buttons.
- Bottom-right:** A screenshot of the 'PayHere' payment interface. It shows a 'Pay for' section with 'no items' and 'LKR 500.00'. Below it is a 'Pay with' section with options for Credit/Debit Card (VISA, MasterCard), Mobile Wallet (Apple Pay, Google Pay, Samsung Pay), and Internet Banking. A 'Next' button is at the bottom.

Very similar to buying invoice and user should fill all the fields , select the area to be clean by thrasher (boundary of the garden) and finally select the delivery location . user can pay advance payment also.

We provide Trasher to social service as a free service and form is very similar to this one.

The screenshot shows the 'PayHere' payment interface. It includes a 'Pay for' section with 'no items' and 'LKR 500.00'. Below it is a 'Pay with' section with options for Credit/Debit Card (VISA, MasterCard), Mobile Wallet (Apple Pay, Google Pay, Samsung Pay), and Internet Banking. A 'Next' button is at the bottom.

Finally we can move on to support center. In this section, 6 type of issues can be informed and get the help from the admin or customer service center.
